Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/12/02 has been entered.

Specification

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The following title is suggested: A Method of Shielding an Electronic Card with a Printed Circuit on a Metal Substrate.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

4. Claims 4, 5 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In Claim 4, the phrase of "a metallic substrate" (line 4) is unclear if this is referring to the phrase of "a metal substrate" (line 2) previously recited in the preamble. How many metal

Art Unit: 3729

substrates are there? Furthermore, the phrase of "a screening cover" (line 7) is unclear if this is referring to the phrase of "a metal screening cover" (line 2) previously recited in the preamble.

Again, how many screening covers are there?

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

6. Claims 4, 5 and 7 rejected under 35 U.S.C. 102(b) as being anticipated by Tuttle 5,601,941.

Tuttle discloses a method of producing an assembly comprising: forming a gutter (recess 36) on a metallic substrate (housing 12) by stamping (see col. 4, lines 14-18) mounting a printed circuit ^{electronics card} (contact trace 50) onto a surface of the metallic substrate 12 adjacent to the gutter 36; positioning a ^{metal} screening cover 14 having an edge including a tab (annular portion 30) so that the tab rests substantially within the gutter 36; and crimping the substrate by crushing it to secure the tab of the cover onto the substrate (see col. 4, lines 43-47).

Regarding Claim 7, the gasket 16 can be broadly read as another tab that is crimped with the tab 30, thus there are a plurality of tabs 16, 30 that are crimped.

Response to Arguments

7. Applicant's arguments with respect to claims 4, 5 and 7 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dexter Tugbang whose telephone number is 703-308-7599. The examiner can normally be reached on Monday - Friday 9:00 am - 6:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on 703-308-1789.
